FOREST BRANCH

Dear Sir,

I am very glad to note that you have agreed to give Grants to Table Tennies Association when my Son and the Secretary met you to request the same. Please Sanction the Grant and oblige.

The labourers of Bhadravati have formed an association named Sri Rama Co-operative farm Society and have prayed for Ukkunda - Navinakere and Kenchammana-halli which belong to forest Department. If you kindly release the above said land from the Forest Department for the aforesaid purpose I will be much thankful to you. They have deposited Rs 350/- as the land is not Sanctioned it Cannot be Registered. As they are dry and Uncultivable lands I think there is no much difficulty

in reading the above Said Villages.

Please Convey my Wishes to your beloved misses.

Please drop a kind letter for the action taken and oblige.

Thanking you Sir

Yours faithfully,

A.K.

CHIEF CONSERVATOR OF FORESTS.

Copy of the letter No.M.115-443/58 dated 21st November, 1959 from the Conservator of Forests, Shimoga to the Chief Conservator of Forests in Mysore, Bangalore.

.....

Subject:-Grant of lands for cultivation of cashew-nut and fruit bearing trees in Ukkunda etc., villages.

.....

With reference to your memo No.B3.61-18595/59 dated 30th September 1959 on the subject, I enclose herewith a copy of letter No.1517 dated 12-10-1959 received from the District Forest Officer, Bhadravathi to state as follows:-

Sri Kempiah, President of Sri Rameswara Co-operative Society, Ukkanda (under registration) Bhadravathi wants lands mentioned in his application for purposes of cultivation and re-building the bechárak areas. His ground for the request that the area which is now within Anthargange State Forest limits is devoid of valuable tree growth such as Honne, Nandi etc. By granting these treeless areas about 300 families of more than 2000 people will have their living by agriculture.

The District Forest Officer while describing the areas applied for has rightly pointed out how and why the tracts are not well wooded and how this state cannot be interpreted as allowing the land to be idle. According as funds are available the blank áreas are planted up each year. Large forest tracts are being lost owing to heavy power and irrigation projects and for the rehabilitation of displaced persons. To keep up the rising afforestation tempo, we need all the land we have.

The Deputy Commissioner, Shimogá has favoured the grant of the lands vide copy of his letter addressed to Government submitted to you with my memo No.M.115-443/58-59 dated 19-10-1959.

On the request of Sri M. Lingiah and others for the release of the same areas, you have already addressed Government expressing that it is undesirable to grant the lands.

There is no case for a reconsideration of the decision.

The petition of Sri Kempiah sent by you to the District Forest Officer, Bhadravathi is herewith enclosed.

****

Copy of the letter No.1517 dated 12th October, 1959 from the District Forest Officer, Bhadravathi to the Chief Conservator of Forests in Mysore, Bangalore.

.....

Subject:-Granting of lands for cultivation cashewnut and fruit bearing trees and Co., in the following Becharack villages, namely, Ukkunda, Antharagange and Kenehmmanahalli, Kudligere Hobli, Bhadravathi Taluk.

Ref:-Your No.B3.61-18595/59 dated 30.9.59.

.....

The areas in question were inspected by me on 9th instant and my report is asunder:

S.No. 20 of Anthergange is included in the Anthergange State Forest and contains coppice growth of various deciduous species with some teak standards left over while the area was worked and some sandal trees too. In the past, it seems to have been worked for supply of fuel and the coppice growth of fairly good size has come up as well as could be expected in the locality.

The growth in the remaining area consists of infereior growth of the species such as matti, hunal, Soymida febrifuga Albizzia species, Canreya, etc with sprinkling of teak and sandal. These are the areas of deserted village and included in the State Forest of Anthergange and growth is of the type as could be expected from natural growth over abandoned areas over a period of years. Though the present growth is of inferior type area is potentially good and can easily be utilized for the fuel plantation a big scheme for which is under contemplation.

2. As regards the remarks of the applicants that the Department has not put the areas to any Forest purpose, I can only say that it is a layman's observation. As Foresters, we know that Department cannot pay attention or carry operations in all the areas of Forests at a time or in a short period. Areas have to wait for their turn over years, according to working plans. Thus some areas may remain unattended or unutilized, but they cannot be said to be lying idly.

3. While disposing of another similar application, the Conservator of Forests, Shimoga Circle has in his No.M.115-443/58-59 dated 18-8-59, has recommended the request for grant of lands in these areas be rejected.

4. Further, Deputy Commissioner, Shimoga in his letter No.M4.C.6556-334/57-58 dated 14-9-59, addressed to the Secretary to Government of Mysore, Revenue Department and copied to the Conservator of Forests, Shimoga Circle, has recommended that the lands be granted despite Forest Department not agreeing to release, since portion of lands comes under irrigable zone and remaining could be utilized for dry cultivation. As I have no detailed maps of irrigable areas under Zone, I cannot make any observations on this.

5. The original application is resubmitted herewith.
